

**LIST OF SUB-PROCESSORS
USED IN CONNECTION WITH THE SERVICES**

This Schedule describes the Sub-processors material to Braze's provision of the Services.

(effective as of the Effective Date; subject to change)

Last Modified: 1 June 2026

Braze, Inc. ("Braze") uses certain Sub-processors, whether third parties or subsidiaries of Braze (as described below) who process Personal Data on behalf of Braze and in connection with Braze's provision of the Services to its customers. Capitalized terms used herein without definition are used as defined in the Agreement.

Sub-processors are subject to written agreements that contain confidentiality and security commitments, in substance the same as those in the DPA with respect to the protection of Personal Data to the extent applicable to the nature of the services provided by such Sub-processor. Braze remains responsible for the acts and omissions of its Sub-processors pursuant to the DPA.

What follows is the list of Sub-processors that Braze uses in its provision of the Services. Depending upon a Customer's use of the Services e.g. geographical location of the Customer, not all Sub-Processors will be needed to deliver the Services. Sub-processors receive, store, structure, categorize, analyze, handle, apply machine learning models to, process and send Personal Data, as applicable and in accordance with the Agreement. The Sub-processors Process Personal Data until the earlier of (i) the completion of the Processing provided by such Sub-processor, and (ii) the duration of the Agreement, subject to the terms of the Agreement and the Documentation.

Customers shall provide appropriate contact details through Braze's applicable subscription mechanism in order to receive notice of new Sub-processors. More information on Sub-processors, including their contact details and available notification mechanisms, can be found at <http://braze.com/subprocessors>.
